

**SCC Business to Business (B2B) Solutions**

**Proprietary Frameworks**

- assess risks, identify vulnerabilities, promote sustainable business development, and implement milestone-based solutions customized to each organizational culture
- build just in time professional development programs that leverage local, state and federal incentives to reduce costs and accelerate development of a highly adaptable, highly skilled, diverse workforce
- invite disruptive technology
- encompass Industry 4.0: the Fourth Industrial Revolution

We speak technology and business languages *and* we can translate those languages into best practice principles that create opportunities and achieve objectives.

**Enterprise consulting Solutions**

- Enterprise Architecture: taking businesses from current to future state
- (GRC) Governance, Risk and Compliance: optimizing processes, eliminating waste and protecting stakeholders
- Virtual (CTO) Chief Technology Officer: access to BIG technology, without the BIG price tag
- [NIST Cybersecurity Framework](#): managing cybersecurity related risks
- Human Capital: workforce development and training; achieving diversity goals
- Business Growth Solutions: marketing, diversification
